

# IT Roles (All Levels and Sectors of IT Management) - Hong Kong and China

## IT Positions in Hong Kong and China

**ERLMS Limited is a professional management consulting firm specialising in providing Business Management Tools, Organisational and Human Resource Management Consulting, Executive Search Services and IT System Development and Solution Services to companies worldwide.**

We currently have numerous IT job roles across all sectors and levels. Our clients are seeking IT professionals from Engineer/Consultant level all the way up to Vice President level across a variety of industries.

If you have a background in IT Software & Web Application Development, IT Infrastructure & Networking, IT Data Storage & Data Warehousing, Project Implementation, Project Management, Operation & System Support, IT Business Process & Development or in the Information System Management areas such Payroll, Finance & Accounting, Supply Chain, Banking, Insurance and other functional and business sectors, we would like to hear from you.

To be considered for one of our great roles, please email us your resume on [executivesearch@erlms.com](mailto:executivesearch@erlms.com). Please indicate the seniority level, IT sector and industry that you are looking to move into, the location(s) that you prefer to be based in and your current and expected salary package.

IT functional and technical managers and specialists as well as support and operational professionals of any nationalities are all welcome to write to us.
